

**The
British Carbon Group**

This is to certify that

A bilateral agreement exists between the UK body, the British Carbon Group (which is a registered charity (207890) affiliated to and sponsored by The Royal Society of Chemistry, The Institute of Physics and The Society of Chemical Industry) and the Brazilian body, the Brazilian Carbon Group (ABCARB), whereby members of either group are eligible for the host nation's members rate to register and attend the respective group's scientific meetings. Further, each body desires to promote and encourage opportunities for collaboration in carbon science between their respective memberships.

This agreement was entered into this 19th day of March, 2009
and expires on the 5th Anniversary.
